## **SPEED. ACCURACY. EXCELLENCE.**

### **Rapid Medical Tests**

Alfa Scientific Designs, Inc. (ALFA) is a leader in the development and manufacturing of rapid point-of-care immunoassays. Our focus on excellence in product development, manufacturing and customer care ensures our rapid tests provide accurate results.

## **LEADING TECHNOLOGY**

Since 1996, ALFA has developed over 50 products and filed 28 patents. Our design approach ensures outstanding product quality and end-user flexibility. We are proud of our strong FDA 510(k) clearance and our CE registration track record, which ensures that our customers have the latest technology available.

Our R&D team pushes the development approach to deliver state-of-the-art designs, while balancing the need for the highest possible quality and a positive customer experience with the end product. As we introduce new products into the manufacturing mix, the entire team uses the same rigorous process controls and standards as the current product portfolio.

## **PRECISION MANUFACTURING – MADE IN THE USA**

ALFA is located in Poway, CA, USA. All of our products are developed and manufactured in our facility in the San Diego, CA region. Our highly trained, capable team focuses on building quality into every step of the manufacturing process. Our quality system is engineered to match the rigors and standards of our industry and the global marketplace. ALFA is FDA cGMP compliant, and ISO13485 registered for in-vitro diagnostics devices. Most of our products have US FDA 510(k) clearance and CE Markers.

## **CUSTOMER CARE**

We understand that the fast pace of business demands efficiency. We ensure our staff has the technical knowledge, training and commitment to serve our customers. Our goal is to constantly make the customer experience with ALFA better. We do this by engaging customers to understand their needs, and by continuously gathering feedback on our performance and ways we can improve. We have built a solid reputation by supporting our customers with new technology development, novel test platforms, and with live technical support. ALFA's approach to customer care has resulted in long-lasting partnerships and recognition for our outstanding performance.

## **YOUR PRODUCT DEVELOPMENT AND MANUFACTURING PARTNER**

ALFA supports a broad range of product development and manufacturing needs. We will partner with you in contract product development, technology transfer, OEM manufacturing, and private labeling. Our expertise in the FDA approval process will ensure your product commercialization proceeds efficiently. We develop and manufacture our proprietary and OEM products with equal attention to details, resulting in outstanding quality performance. ALFA is here to support your rapid medical test technology and branding needs for the life of your products.

**Speed.  
Accuracy.  
Excellence.**

**Made in  
the USA**

ALFA is a leader in the development and manufacturing of rapid immunoassays point-of-care tests. We offer a broad range of services including contract product development, technology transfer, OEM services, custom assembly, and packaging with private labeling. Established in 1996, ALFA develops breakthrough products produced to the highest quality standards. Our team takes pride in its long-lasting partnerships and in providing efficient, caring customer service. Our track record demonstrates our commitment to excellence in all we do.

**US FDA Regulated • ISO Certified**
